

ScopeGuard Privacy Policy

Effective Date

July 24, 2026

Owner

ScopeGuard is operated by DevAir. Contact: devair.org@gmail.com. Website: <https://scopeguard-ai.vercel.app>

Overview

ScopeGuard is an AI-powered tool that helps freelancers determine whether client requests fall within an agreed project scope.

Information We Process

We process the project scope, client request and selected currency only to generate AI responses. We do not intentionally store these submissions after processing.

Accounts

The MVP does not require user accounts.

AI Processing

Submitted content is securely sent to Google's Gemini model to generate the requested analysis.

Analytics

We use Vercel Analytics to understand aggregate website usage and improve the service.

Cookies

We do not intentionally use non-essential cookies. Essential platform cookies may be used by our hosting provider.

Payments

The MVP does not process payments.

Data Storage

We do not maintain a database containing submitted project scopes, client requests or AI responses.

International Users

ScopeGuard is available worldwide.

Children's Privacy

The service is intended for users aged 13 and older.

Third-Party Services

Vercel (hosting/analytics), Google Gemini (AI), GitHub (development).

Security

We use reasonable safeguards but no online service can guarantee absolute security.

Your Rights

Since we do not store user submissions, there is generally no stored content to access or delete. Contact us at devair.org@gmail.com for privacy questions.

Changes

We may revise this policy and update the effective date.
